## Notice of Modification of our Midterm Business Plan

We would like to inform you as follows of the recent modification of the Midterm Business Plan entitled “GNT 2025 (Great Niche Top)” (for the term from fiscal 2021 through fiscal 2025) which we disclosed on July 8, 2021.

### 1. Background of the modification

Pursuing our Midterm Business Plan and aiming at becoming a great, leading company serving a niche market, named a “Great Niche Top Company,” we adopted four business principles to implement various measures and to attract brisk overseas demand and demand from the strong semiconductor markets: As a result, in fiscal 2022, we achieved the numerical targets set for fiscal 2025. Accordingly, we have comprehensively examined future business environment and market opportunities, confirmed the progress made for the Midterm Business Plan, and reviewed the measures for growth along with the investment plan. In addition, we have modified our numerical target figures and others.

It is our intention to attempt something never tried before and make a real difference, with the sense of mission of “supporting customers’ manufacturing process with helpful solutions.”

### 2. Explanatory materials

We have posted detailed materials in the section of “Investor Relations” of our corporate Website. We would appreciate it if you would also read it.
